1. Mechanical Uses : For paper For film For other _____ 2. Need to Laminating
3. Mechanical equipment users : Company own use Others to use
4. Production projects : _____ 5. Product Maximum width : _____ mm
6. Web Material : Paper , Film , Others _____ 7. Web thickness _____ ~ _____ μ m
8. Glue properties: Solvent -based ; Water-based ; hot melt ; UV Glue ; Others
A. Viscosity _____ ~ _____ CPS ; Solid Content _____ ~ _____ %
B. Drying conditions :
a. Thermal curing type: max. heating temp. _____ $^{\circ}$ C ; heating time _____ sec ; not required
b. Light curing : UV Intensity : _____ mW/cm^2 ; UV Dose : _____ mJ/cm^2 ; not required
c. Coating thickness (dry weight) : _____ μ m
9. Min. Capacity : production speed _____ m/min or Monthly output _____ m^2
10. Unwinder used : air shaft ; air chuck (shaftless) , match roll core _____ inch
A. Single shaft ; Twin shaft (tower rotation) , Max. unwinding diameter: _____ mm
B. Max.unwinding allowable tension: _____ kg
11. Coating method : By a mechanical plant design or select the following form
 Slot Die coating Comma roller coating Wire bar coating
 Gravure coating Gravure reverse coating Reverse three roller coating
 Three roller coating Five roller coating Air knife coating Dip coating
12. Rewinder used : air shaft ; air chuck (shaftless) , match roll core _____ inch
A. Single shaft ; Twin shaft (tower rotation) , Max. rewinding diameter: _____ mm
B. Max.rewinding allowable tension: _____ kg
13. Heat mode of supply: Electric Thermal Oil boiler Steam boiler Gas burning
14. Mechanical setting place: Domestic _____ Foreign (The names) _____
15. Quotations price: FOR FOB CIF (Port Place) _____
16. Other Notes: _____
